EDUCATION

Basavakalyan Engineering College, Basavakalyan

Bachelor of Engineering - Computer Science And Engineering; GPA: 7.26

Karnataka, India

July 2019 - June 2023

Basavakalyan Engineering College, Basavakalyan

12th - Science; Percentage: 78%

Karnataka, India

2019

Sai Vidya Mandir, Basavakalyan

10th - Percentage: 84.48%

Karnataka, India

2017

SKILLS SUMMARY

Web Development : HTML5, CSS3, Javascript, Bootstrap5, ReactJs

Programming Language: C++

Tools: GitHub, Git

Core: DSA & OOPS

EXPERIENCE

Web Developer Intern at Leventm Technologies Private Limited:

September 2022 - October 2022

- During my web developer internship, I gained practical experience in building and maintaining websites. I collaborated with cross-functional teams to implement features and resolve issues using HTML, CSS, JavaScript. Assisted in creating responsive and user-friendly web interfaces, ensuring optimal performance and accessibility.

PROJECTS

Blockchain Based Food Traceability for Smart Agriculture :

May 2022 - May 2023

- Designed and implemented a blockchain-driven solution, utilizing distributed ledger technology, to improve food traceability within smart agriculture, ensuring transparency and immutability in tracking agricultural products throughout the supply chain from farm to consumer.
- The Primary goal of this project is to create an intelligent peer-to-peer system that monitors and analyzes agriculture data to optimize production and reduce waste.

Shopping Cart Model:

October 2022

- Implemented a shopping cart system with features like adding/removing items, quantity adjustment, and calculation of the total order amount.
- Tech Stack :** HTML, CSS, Javascript.

Online Food Delivery-web development project:

April 2023

- This project involves developing a user-friendly online food delivery platform by utilizing HTML and CSS to create an aesthetically pleasing and functional website, enhancing the overall user experience and ensuring efficient navigation.
- Tech Stack :** HTML, CSS

Marketing Agency Landing Page :

August 2023

- Developed and launched a Marketing Agency Landing Page, showcasing proficiency in web development technologies. Designed a visually engaging website to effectively promote the agency's services.
- Tech Stack :** HTML, CSS, Javascript, Bootstrap5

Interactive Calculator :

September 2023

- Implemented a wide range of mathematical operations, including addition, subtraction, multiplication, division, and support for decimals, ensuring accurate and reliable calculations.
- Tech Stack :** HTML, CSS, Javascript

Personal Portfolio:

October 2023

- Designed and developed a personal portfolio website to showcase my skills in web development and design. The website features proficiency in HTML, CSS and JavaScript, along with responsive design principles and user experience enhancements.
- Tech Stack :** HTML, CSS, Javascript

CERTIFICATIONS

- I obtained a Frontend Development Certification from SimpliLearn, completing the course on October 2023.
- I am currently pursuing a comprehensive certification in Data Structures and Algorithms (DSA)
